George Ciprian Telinoiu
Computer Science Engineer - Junior IAM Operator

The Engineer you won't expect! Born in Romania, raised in Italy, linked to the USA. I can combine my technical skills with leadership and team building. I thrive on teamwork and I am always ready for the next challenge. In love with anything that is tech-related, from software to hardware.

EDUCATION

Computer Science Bachelor's Degree
Sapienza Università di Roma ⬈

09/2017 - 09/2020 *Rome, Italy*

Thesis
- Image Recognition **Machine Learning** Model for **Automated Vehicles** - YOLO vs TinyYOLO ⬈

Eng. in Computer Science Master's Degree
Sapienza Università di Roma ⬈

09/2020 - 01/2023 *Rome, Italy*

Carreer
- **Machine Learning** - **Big Data** - **Digital Entrepeneurship** ⬈

WORK EXPERIENCE

Senior Diplomatic Volunteer
United Network ⬈

04/2016 - Present *Rome, Italy*

Organizes Diplomatic Projects for students all around the world, simulating what real diplomats do within ONU Committees

Achievements/Tasks
- **Committee Director**: Coordinated over 200 students;
- **Under Secretary General**: Trained and Supported over 50 staff members over several months.

Startup Co-Founder
Yeastime S.R.L ⬈

03/2021 - 06/2021 *Rome, Italy*

Innovative startup that uses sensors and sound waves to reduce time, consumption and energy costs of the fermentation process.

Achievements/Tasks
- **1st Place** Dock3 The Startup Lab 2021 Edition ⬈

Junior IAM Operator
NTT Data ⬈

08/2021 - Present *Rome, Italy*

Achievements/Tasks
- **Main reference** for **High Responsability Projects: Telepass - Unicredit Bank**
- **Complex Access Management Orchestration**: Authentication, MFA, Federation, SSO, Passwordless Solutions;
- **System Administration**: Remote monitoring of on-prem software on Linux Machines;
- **Access Management Software Deployment** on remote clusters (Azure VMs): Transmit, AM ForgeRock, Entrust;

SKILLS

Proficient Public Speaking · Adaptability · Perseverence · C · Python · JavaScript · Agile Software Development · Machine Learning · Algorithm Design · Access Management

PERSONAL PROJECTS

Film Advisor (05/2020 - 06/2020)
- **Full Stack** website that interacts with **Youtube APIs** to handle user playlists and suggests movies based on user actions. ⬈

Malware Classificator (09/2020 - 02/2021)
- **Classify malware** given a **JSON Dictionary** of Assembly Code ⬈

Multi-Class Image Detector (09/2020 - 02/2021)
- **Detect Objects** using a **Convolutional Neural Network** model ⬈

Neural Network Development - YOLOv3 (01/2021 - 04/2021)
- **YOLOv3** re-implementation **starting from scratch** ⬈

Advanced Algorithm Design (09/2020 - 02/2021)
- Developed **custom advanced algorithms** to solve specific tasks ⬈

CERTIFICATES

First Certificate Cambridge (04/2016 - Present)

ForgeRock Access Management Core Skills (03/2022 - Present) ⬈

ForgeRock Access Management Product Knowledge (03/2022 - Present) ⬈

LANGUAGES

English
Full Professional Proficiency

Italian
Native or Bilingual Proficiency

Romanian
Native or Bilingual Proficiency

INTERESTS

Cloud Computing · NLP · Photography
